

Protect your Family From The Effects of Viruses & Harmful Bacteria*

Indoor air levels of many pollutants may be 2–5 times, and occasionally, more than 100 times higher than outdoor levels. Indoor air pollutants are of particular concern because most people spend as much as 90% of their time indoors.” - U.S. Environmental Protection Agency

Get Hospital Quality Air With The Lennox PureAir™ Air Purification System

- Based on Field Studies, Removes or destroys 90% of flu and cold viruses, infectious bacteria like MRSA and other living microorganisms down to 0.01 micron
- Includes Carbon Clean 16 Air Filter, Germicidal/UV Light and a Titanium Dioxide Pure Air Catalyst
- Removes 99.9% of mold spores, pollen, dust and pet dander.
- Removes more than 95% of fine particles absorbed by the lungs down to 0.3 microns

TECHNOLOGY INNOVATIONS

UVA LIGHT AND CATALYST
An ultraviolet lamp activated by a titanium-dioxide-coated catalyst breaks down odors and VOCs through a contamination destruction process called photocatalytic oxidation.

CARBON CLEAN 16® FILTER
MERV 16-rated*** filter with activated, carbon-coated fibers captures contaminants as small as .01 micron**, removing them from circulation.

Due to recency of outbreaks no specific claims can be made on the effectiveness of any system on destroying or eliminating the virus commonly known as COVID-19

Have Your Home's Air Cleaned Just like The Do In The International Space Station

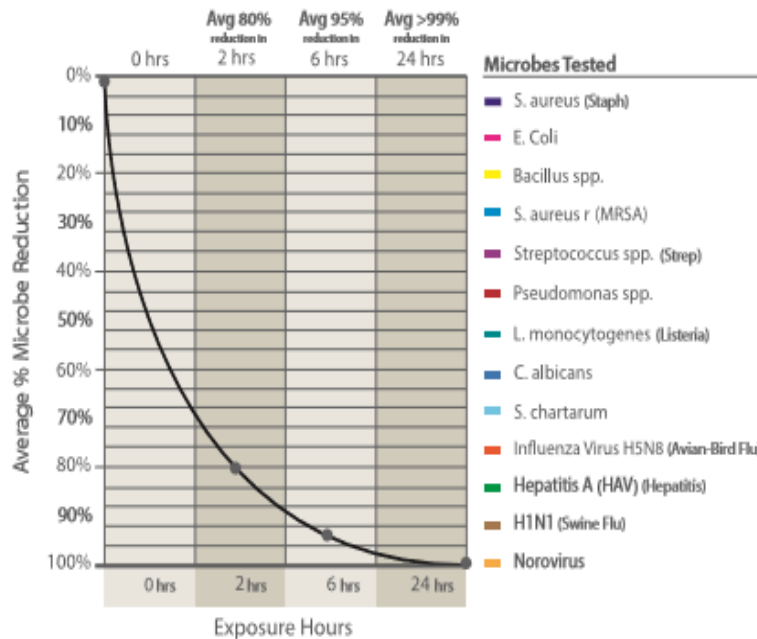

Benefits of Air Scrubber's ActivePure® Scrubbing Technology

- ✓ Fastest most efficient technology available
- ✓ Only product in its class to feature NASA Certified Space Technology™
- ✓ Effective against Staph, Strep, E-Coli, Listeria, Swine Flu, Bird Flu, Hepatitis A, Norovirus, Bacillus, Pseudomonas and more
- ✓ Proven effective in the International Space Station, Liberty Bell, Ground Zero Museum, Major League Baseball facilities, hospitals, schools, hotels and hopefully Your Home!
- ✓ Made In the USA

Reduction of Surface Contaminants

ActivePure® (AC) Technology 24 hour testings conducted by Kansas State University

The ActivePure® Technology built into each Air Scrubber by Aerus is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ in its category
